

Ekahau Quick Start

Video On-Demand

This self-paced video on-demand training course consists of lectures taught by Wi-Fi experts, and is designed to get you up and running with Ekahau products.

Need to get up-to-speed in Ekahau as quickly as possible? You're in the right place. Ekahau Quick Start On-Demand Training is designed to take you through all of the basic workflows that you need to know to design networks, validate with site surveys, and perform regular health checks to keep your network high performing.

Dive into the following:

- RF fundamentals
- Predictive designs
- Capturing and analyzing survey data
- Spectrum analysis
- 📕 What's new in Wi-Fi 6, Wi-Fi 6E & 6 GHz
- What's new in Ekahau AI Pro, Survey, Analyzer and Insights
- And much more!

Course specifics:

- Updated in 2022 to include 6 GHz
- Designed for Wi-Fi engineers, architects, network owners, IT administrators, and other Wi-Fi and IT professionals
- 3 hours of self-paced video on-demand training
- Training offered in English only

Technical requirements:

Students will need access to the internet to watch the videos

Course lessons:

- Ekahau Connect Suite Overview
- 3 Steps to Great Wi-Fi
- Ekahau Al Pro Overview
- Importing Floor Plans and Scaling Maps
- Drawing Walls and Assigning Coverage and Exclusion Areas
- Establishing Coverage Profiles and Requirement Areas
- Using AI Auto-Planner for Wi-Fi Design
- Coverage Planning in Ekahau Al Pro
- Creating Accurate Device and Usage Profiles
- 2.4 / 5 / 6 GHz Channel Planning with Ekahau AI Pro
- Designing for Capacity with Ekahau AI Pro
- Multi Floor Design
- Reflections and Diffractions
- How to Survey
- Ekahau Insights Overview
- Sidekick 2 Capabilities and Survey Overview
- Ekahau Insights Cloud Collaboration
- Automatically Detecting Wall Attenuation Values with Auto Wall Calibration
- Using the Network Simulator
